The **Gross** rate is the contractual rate of interest payable before deduction of income tax at the rate specified by law.

The **Tax-free** rate is the contractual rate of interest payable where interest is exempt from income tax.

The **Annual Equivalent Rate (AER)** is a notional rate which illustrates what the gross interest would be if interest was paid and added to the account annually. AERs on an account which pays monthly interest assumes interest is added to the account at the end of each month during the year. In practice, the option to have interest added in this way is not available on our monthly interest option accounts.

Personal Accounts

Cash Individual Savings Accounts (ISAs), Child Trust Fund and Child Trust Fund Maturity accounts pay interest tax-free provided all terms and conditions of the account types are met. For all other accounts, interest will be paid at the Gross rate with no tax deducted.

Business Accounts

Interest will be paid at the Gross rate. The receipt of interest gross by a company will not prevent that interest from being liable to corporation tax.

All the above rates are variable. Tax treatment and rate of interest payable will depend on individual circumstances and may change in the future.

If you have any questions about this rate change, please call into your nearest branch or phone us today on 0345 601 3344.
